TRAINING & DEVELOPMENT

Preparing professionals for solid future

Training is imparted to select individuals in the fields of formwork, bar bending, steel fixing, masonry works, scaffolding, laboratory testing of materials, surveying, etc. About 80% of the trainees are from economically weaker sections of the society. So far, the Institute academy has successfully produced 85 site engineers and 530 site supervisors who now have a firm grip on quality standards.

VNC's belief in the motto 'healthy body makes a healthy mind' has led to the introduction of yoga regime, physical training, safety drills and first aid training to the students thus the trainees are shaped into competitive individuals with intellectual prowess and healthy physique to be future - perfect.

VNC Training And Research Institute was created to hone the skills of aspiring individuals who are looking to be a part of construction field and transform them into professionals of the future. The in-house training institute aims at producing Site Engineers and Supervisors who are way ahead of others in meeting the challenges of this dynamic industry.

We empower leaders of tomorrow
